

EASTER AREA DIRECTOR OF EXAMINERS REPORT

For the Annual General Meeting

2018 has again shown an increase in the number of men attending the competitive Dan grade promotion examinations throughout the year.

Unfortunately the ladies section has not increased of this group of judoka has not improved again this year. Once again it shows that the majority of the area first Kues and above grads are not using this method through the promotion system???

The 2018 Technical Dan grade weekend assessment course had 9 people booked in on the course ranging from First Kyu to 4th Dan along with a second Dan attending on the Sunday to complete two sections of his examination successfully.

The feedback from those taking part on the course was very good and positive this course is gaining credibility within the English areas. There was a 90% success rate on this course.

Littleport Judo club hosted a very good competition ending with a competitive Dan Grade promotion examination completing a very good day.

The Kata section of all senior examinations has shown to be successfully included into the grading system.

There will be four competitive Dan grade promotion examinations held in at Thetford in 2019.
